

Is the doTERRA Business Opportunity right for me?

- Are you passionate about natural health?
- Do you work well in a team environment?
- Do you love to share positive experiences with your friends & family?
- Do you want to build a sustainable long-term business that you can reap the rewards from for many years to come?
- Can you afford the investment of approximately \$AUD 150 per month?
- Do you have least 5 - 10 hours per week to invest?

YOU'RE ONLY ONE
DECISION AWAY
FROM CHANGING
YOUR LIFE.

If you answered yes to the majority of the questions above (and a resounding YES to the last two in particular) let's chat further.

Becoming a doTERRA wellness advocate means sharing essential oils with your network and empowering people to take control of their health naturally. We are not doctors and do not diagnose or prescribe, we are simply a doorway to more natural alternatives that people may otherwise not have known about. And let me let you in on a little secret, you're a network marketer and you don't even know it. That movie you recommended last week, the restaurant with the awesome food that you told everyone on Facebook about, the great new coffee shop you posted on Instagram, the lady who does your eyelashes that you recommend to all your girlfriends – that's network marketing and you're not even getting paid for it. Imagine using a product you truly love, sharing that with people and getting paid for it – really well. That's what this business is all about.

What support do I get?

When you become a part of our team you will have exclusive access to our step- by-step program – Fast Track to Abundance – which has everything you need to succeed (and succeed greatly!) all in the one spot. You will also join our Business Forum and Team Calls where you can connect with others on the same journey – we can achieve more together than we can on our own. No matter where you are in the world (we have team in Australia, NZ, Europe, Canada and the US) We're in this together.

Your business. Your way.

I know many people who have built their doTERRA business alongside their natural health based business, people who have built 6 and 7 figure incomes almost exclusively online as well as people who solely meet customers in coffee shops! The program is the blue print – but no one can replicate how you do it.

The way in which you want to share the essential oils includes, but is not limited to:

- small group classes, either in public spaces that you have hired or in the homes of people interested
- one-on-one meetings
- Facebook lives & Webinars
- market stalls
- through complimentary businesses – yoga studios, massage practices, physiotherapy / acupuncture / osteopath clinics

What's the Cost?

For what most traditional small businesses spend in a week, you will invest in a year. So for around \$AUD 150 per month you can run your doTERRA business. And there is no huge start up cost. Although the most popular kits are between \$300 - \$650, you can begin with something as low as \$174 – it's completely up to you.

doTERRA[®]

How do I know this isn't a fad?

Essential oils have been used for thousands of years, they're not going anywhere! What do you think everyday synthetic medication is based on? The effective parts of plant material. It all starts with Mother Nature. This is not the latest weight-loss fad or beauty craze - and hence, customers stay with you and repeatedly order. The retention rate for doTERRA is 65% + compared to the standard network marketing average of around 12%. This is because a) the products actually work and b) are so effective and versatile. The oils aren't confined to one area of your life. You can literally do everything with them - use them therapeutically, to support your immune, respiratory and digestive systems, manage your moods and stress, make your own natural cleaning and beauty products and even cook with them! Furthermore, doTERRA's essential oil infused supplements are some of the best in the world

Why doTERRA?

doTERRA source from 40+ different countries instead of buying large plots of land and home-growing for convenience. The oils come from plants that are grown where they are meant to grow from farmers and distillers that know the process like the back of their hand. Half of the countries that are sourced from are considered developing countries, so to ensure that small scale farmers and harvesters in disadvantaged areas are treated ethically, doTERRA has introduced an initiative called Co-Impact Sourcing. An initiative that seeks to develop long-term partnerships while creating sustainable jobs and providing reliable income in underdeveloped areas. doTERRA is committed to the ethical treatment of its suppliers by providing on-time payments at fair prices.
